

# EZ-LIGHT™

Extremely long life  
(> 10 years)

T8L / T18

T30 / M18

K80L QUAD

Shows different colours  
at the same time

Power-compatible with bus stations  
(ASi, ...) because of low power  
consumption and pin-assignment

CL50

K80L

TL50

Many installation options with connector,  
cable gland or protections tubes

Possible with seven functions with steady,  
flashing or alternating colours

K30L

K50FL

K50L

Three types of connection:

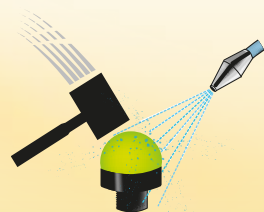

- Pigtail M12
- Integral M12
- Integral cable (2m)

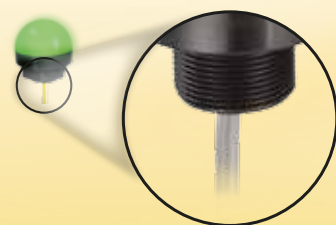

Models with integrated buzzer

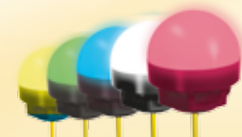

Robust and IP67 / IP69K

M22 and M30 standard threaded  
base for panel mounting

Up to 5 colours in the same device
